

## Workflow Efficiency.

10.1” intuitive touchscreen with smartphone-like usability. A unique, customized experience tailored to individual preferences with My ADVANCE. Supports mobile solutions and integration with many popular cloud services like Google Drive™ and Box. Scan and convert documents to searchable digital files in a variety of file formats. Integration with Canon and various third-party software with embedded application platform.

## Security.

Advanced standard security feature set to help safeguard sensitive information and assist in regulatory compliance. Security policy settings can be controlled with a dedicated password, configured from a central location, and exported to other supported devices. Control who has access to the device, and to which features, using a host of flexible authentication methods – picture login, PIN code, user name/password, or card access (requires additional option).

## Cost Management.

Track and assess print, copy, scan, and fax usage and allocate costs to departments or projects. Apply print policies and restrict usage by user to help reduce unnecessary printing and contribute to cost efficiency. uniFLOW Online Express, a standard cloud-based solution, provides a centralized dashboard with up-to-the-minute insights into printer activity. Upgrade to uniFLOW server or cloud-based solutions for full accounting and reporting for compatible Canon and third-party devices, pull printing, job routing, and powerful scan workflows.

## Device and Fleet Management.

Designed for quick, easy deployment. Remote diagnostics and parts life management for proactive maintenance and rapid fixes. Easy and intuitive to monitor device status and consumable levels, turn off devices remotely, observe meter readings, manage settings, and implement security policies. Common firmware and regular updates with Unified Firmware Platform (UFP) for continuous improvements and consistency across a fleet.

## Quality and Reliability.

The All-In-One cartridge is designed for long life and easy replacement, helping to decrease the need for service intervention and increase uptime. Canon's signature reliability and engine technologies help keep productivity high and minimize the impact on support resources.

Designed to achieve maximum uptime with status notifications to help keep supplies replenished and intuitive maintenance videos for consumables replacement.

### Sustainability.

A combination of fusing technologies and low-melting-point toner minimizes power requirements and helps achieve low energy consumption. Encourage environmentally-conscious work practices by enabling multiple settings that can help save paper and energy. ENERGY STAR certified.
