

imageFORCE 1440F

QUALITY AND RELIABILITY

Reliable Performance, Every Day

Powered by Canon's trusted technology, the imageFORCE 1440 Series is designed to deliver crisp, reliable monochrome output with consistent performance.

Vivid Image Quality

Advanced imaging technology and toner formulation help provide sharp, high-quality black-and-white prints.

Maximized Uptime

Designed for continuous productivity,featuring real-time status alerts, effortless supply replenishment, and intuitive maintenance videos for common tasks like consumables replacement.

High-Speed Precision Delivers Clear Output

To help users achieve up to 1200 dpi (equivalent) image quality at high engine speeds, the system increases laser exposure frequency—to help you produce prints that are sharp, detailed, and consistent.

HELP EXPAND PRINT EFFICIENCY WITH WORKFLOW SOLUTIONS

Manage tasks, track costs, and print and scan all on one platform with the optional uniFLOW Online solutions, a powerful cloud-based solution that helps to reduce IT workload and adds flexibility to your print environment.

PRINT BETTER, BUILT TO PERFORM

The imageFORCE 1440 Series is designed for reliable performance in compact spaces, combining durability with a modern, intuitive user experience.

SIMPLE USER INTERFACE

The imageFORCE 1440 Series features a consistent and intuitive interface that makes operation easy—whether you're printing, scanning,[1] or managing settings.

- 5-inch responsive touchscreen with a clean, modern layout.
- Icon-based navigation for quick access to key functions.
- Customizable settings for language, accessibility, and display preferences.

WORKFLOW EFFICIENCY

- Supports mobile solutions such as Apple AirPrint, Canon PRINT, Mopria,uniFLOW Online, and Universal Print.[2]
- Supports popular cloud services such as Google Drive and One Drive, dropbox.[3]
- Scan and convert documents to searchable digital files in a variety of formats,including PDF/A.[1]
- Application Library Platform streamlines workflows by offering a customized device experience that boosts productivity and ease of use.
- Easily scan to and print from cloud services or email directly from the device's 5-inch touchscreen interface

CLOUD READY SOLUTIONS

Canon's imageFORCE platform supports seamless integration with a variety of cloud storage services and third-party software. The imageFORCE 1440 Series is compatible with Canon's optional uniFLOW Online and other solutions that are designed to help streamline document workflows, security features, and simplify fleet management. With support for scan-to-cloud,[1] mobile printing, and remote device monitoring, it's built for today's connected work environments.

GAIN CONTROL OF YOUR FLEET

Centralize the management of your print fleet and help maximize uptime with the support of imageWARE Enterprise Management Console. A standard feature on Canon devices, this console helps to monitor device status and consumables, apply security settings, update firmware, capture meter readings, and much more—virtually anytime and anywhere.

PRINTING THAT PERFORMS, SCANNING THAT DELIVERS

Performance doesn't need to stop at print. The imageFORCE 1440F is equipped with a high-speed, single-pass duplex scanner that captures up to 100/80 images per minute (300 dpi, black-and-white and colour). Whether you're scanning reports, ID cards, or everyday documents, the device is designed to deliver clean, high-resolution results that you can integrate seamlessly into your digital workflows. With support for searchable file formats, cloud destinations, and compact media like business cards, the imageFORCE 1440F is built to simplify document capture and help streamline your day-to-day tasks.

SECURITY FEATURES DESIGNED TO HELP SAFEGUARD YOUR INFRASTRUCTURE

Implement security features designed with the modern workplace in mind. These include:

- Minimizes the risk of confidential data exposure by temporarily storing documents in short-term memory only.
- Enhances document security with a "Send-to-Myself Only" restriction to limit unauthorized distribution.[1]
- Verify System at Startup is a process to help verify the validity of the device firmware and Application Library from unauthorized modifications. Includes automatic recovery of firmware.[4]
- With imageWARE Enterprise Management Console Device Configuration Manager Plug-in, security settings can be captured and exported to other devices on the same network.[5]
- Manage access and enforce usage policies remotely with optional uniFLOW Online integration.

- SIEM Integration[6] provides the ability to integrate your print devices into your compatible security and event monitoring strategy.

BUILT WITH SUSTAINABILITY FEATURES

From thoughtful design to efficient energy use, Canon's commitment to the environment can be seen with the imageFORCE series of printers. Features include:

- A combination of highly efficient fusing technologies and low-melting-point toner helps to minimize power requirements and achieve low energy consumption.
- Promotes smarter work habits with customizable settings that help reduce paper use.
- EPEAT Silver and ENERGY STAR® certified.
